

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	Comprehensive Measure of Well-being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the HDI Predictor, project objectives, and problem statement.	2	Self
2	Dataset & Model Overview	Explain the HDI dataset, preprocessing steps, Linear Regression model, and evaluation metrics (R^2 , MAE, MSE).	3	Self
3	Live Prediction Demo	Demonstrate user input, HDI prediction, and HDI category generation.	4	Self
4	Analysis Dashboard	Show Heatmap, Scatter Plot, Distribution Plot, Pair Plot, and Strip Plot with brief explanation.	3	Self
5	GitHub Repository & Documentation	Present the GitHub repository, project structure, and documentation.	2	Self
6	Future Enhancements & Conclusion	Explain future scope, answer questions, and conclude the presentation.	1	Self

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the purpose of the HDI Predictor and its real-world applications.
2	Solution Overview	Describe the dataset, preprocessing, Linear Regression model, Flask application, and project architecture.
3	Live Feature Demonstration	Demonstrate the Home page, Prediction page, Result page, Analysis page, About page, and GitHub repository.
4	Q&A Session	Answer questions related to the machine learning model, technologies used, implementation, and future enhancements.
