

## Problem-Solution Fit

|                      |                                     |
|----------------------|-------------------------------------|
| <b>Date</b>          | 15 March 2026                       |
| <b>Team ID</b>       | xxxxxx                              |
| <b>Project Name</b>  | Comprehensive Measure of Well-Being |
| <b>Maximum Marks</b> | 5 Marks                             |

### Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

|                                                                                                                      |                                                                                                                                                        |                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1. CUSTOMER SEGMENT(S) [CS]</b><br><br>Researchers, Policy Makers, Students, Government Organizations             | <b>6. CUSTOMER LIMITATIONS</b><br>EG. BUDGET, DEVICES<br><b>[CL]</b><br>Limited technical skills, Time<br>Complex datasets                             | <b>5. AVAILABLE SOLUTIONS</b><br><b>PROS &amp; CONS [AS]</b><br>UNDP Reports, World Bank Data, Kaggle Datasets<br><b>Cons:</b> No instant prediction |
| <b>2. PROBLEMS / PAINS + ITS FREQUENCY [PR]</b><br><br>Manual HDI calculation, Complex data analysis, Time-consuming | <b>9. PROBLEM ROOT / CAUSE [RC]</b><br><br>Multiple indicators, Manual analysis, Lack of prediction tools                                              | <b>7. BEHAVIOR+ ITS INTENSITY [BE]</b><br><br>Searches HDI data, Compares countries, Uses online resources                                           |
| <b>2. TRIGGERS TO ACT [TR]</b><br><br>Need quick HDI prediction, Compare countries, Research purposes                | <b>10. YOUR SOLUTION [SL]</b><br><br>Flask-based ML application that predicts HDI score and category using Linear Regression with data visualizations. | <b>8. CHANNELS OF BEHAVIOR [CH]</b><br><br>ONLINE<br>Web App, UNDP, Kaggle                                                                           |
| <b>4. EMOTIONS BEFORE / AFTER [EM]</b><br><b>Before:</b> Confused, Curious<br><b>After:</b> Confident, Satisfied     |                                                                                                                                                        | OFFLINE<br>Reports, Research Papers                                                                                                                  |
